Abstract

All praise be to GOD, The one who revealed the Book to be for worlds as glad tidings and give warning and peace be upon our Prophet Mohamed who send to be as a blazing lamp and for his righteous fellows whatever shining day and night and their successors for ever. Hereby:

One of the most scientists who played a significant role in serving of Holy Quraan and its sciences is The Emam , Jurisprudent , Theologian & Abstinent (Self -denying) The Scientist / Mohamed ALAmin S/o Mohamed ALMokhtar ALJenky AL-Shenqeety (1394H) . He was laid down his footsteps in the certain science which related to the Holy Quraan interpretation. He is a fundamentalist, linguistic jurisprudent. He was added a great effort to the Holy Quraan Science. Obviously, we can assess this in his so wide spread books all over the world. As one of his prominent books: " A memo in jurisprudence fundamentals on looking-garden ", " Prevention of the metaphoric at the house for worshiping & miracle " , " Pushing of interruption & suspicious against Holy Quraan Verses " .

He has had collected his proverbs and letters from his own books and then applied its studies therein. In addition , to his Quaanic library which riches with a researcher scientific stocks. For this reason , researcher seen better to take this character as an abstract for his Master degree under the title :
