Abstract

The title (Islam tolerance to non-Muslims in the Islamic state)

Researcher name: Abdul Aziz bin Ahmed Gharm Allah Al- Ghamdi

Supervisor: Doctor Ebrahim bin Mohammed Al Faiz

The degree: Master in Islamic culture.

University Emam Mohammed bin Saud Islamic University

Year : 1426 – 1425

The date of Discussion: 19/1/1426

The subject:

Clarifying the correct Islamic situation in dealing with non-Muslims, in the Islamic state, in two chapters.

The first one: The basis of dealing with non-Muslims in the Islamic society, in two sections. The first section is : the scientific and the religious basis. the second one is : The moral, social and economical basis.

The second chapter is for the fields of tolerance with non-Muslims in the Islamic society and its restrictions with models of applications, in three sections. In these sections, I talked about the fields of the religious, the scientific, the social and the economical tolerances and clarifying the restrictions which obligate non-Muslims with regard to the Islamic religion or the Muslims. I also mentioned models of applications for these tolerances in the past and at present.

I have been very careful in this letter so that it goes according to the scientific approach, in order to clarify the rights, by using the Islamic sources of legislations: the holy Qurran, the pure Suna, the deeds and saying of the righteous ancestors along with those who have been following them, with the historical reading for what the prophet Mohamed (Peace be on him) ,and his followers were doing, in clarifying, and applying these tolerances to non- Muslims at that time.
